

DONÉ'S

HAIR REMOVAL

by 
VENUS VERSA™

The Venus Versa™ Hair removal applicator combines a high level of light energy (Intense Pulsed Light Technology) with maximum heat distribution to multiple hair follicles at a time. The SmartPulse™ technology ensures a consistent output of heat and at the same time, provides an advanced cooling feature protecting the skin from the heat, ensuring ultimate comfort during the treatment. **Faster procedures, peak power and maximum results!**
